

# Power System Flexibility Campaign

*A Campaign associated with the Multilateral Solar and Wind Working Group (MSWWG) and 21st Century Power Partnership (21CPP)*

This campaign is expected to last 12 months, with a possibility of extension with an updated scope in 2019.

## Goals

The Power System Flexibility Campaign is the continuation of the Advanced Power Plant Flexibility (APPF) Campaign and builds on its momentum to secure government and industry engagement in deploying solutions to unlock flexibility across the whole power system. It widens the APPF Campaign's scope to also cover electricity grids, demand side management and storage.

## Lead CEM Member(s)

Denmark

Germany

China

## Participating CEM Member(s)

Brazil, Canada, Finland, Italy, Japan, United Arab Emirates. Consultations with other CEM Members are ongoing.

## Operating Agent(s)

International Energy Agency (IEA)

## Main Contact Point for participating in the campaign

**Kim Møller Porst**, *Deputy Head of International Department*  
 Danish Ministry of Energy, Utilities and Climate, [kmpor@efkm.dk](mailto:kmpor@efkm.dk)

**Marius Backhaus**, *Deputy Head of Division*, German Federal Ministry for  
 Economy and Energy, [Marius.Backhaus@bmwi.bund.de](mailto:Marius.Backhaus@bmwi.bund.de)

**Simon Mueller**, *Head of Unit*, System Integration of Renewables, IEA,  
[simon.mueller@iea.org](mailto:simon.mueller@iea.org)

**Enrique Gutierrez**, *Energy Analyst*, System Integration of Renewables, IEA,  
[enrique.gutierrez@iea.org](mailto:enrique.gutierrez@iea.org)
